

## Informed Consent

I (print name)\_\_\_\_\_ understand that Structural Energetic Therapy (SET) is a therapeutic and rehabilitative therapy for musculoskeletal problems.

I understand that the SET practitioner is highly trained in advanced SET techniques and that SET treatment is unique, unlike other bodywork treatments I have had.

I understand that, due to its structural nature, it will be necessary for my structural alignment to be observed while standing with most of my body visible to the examiner.

I understand that the SET practitioner will ask me to participate in the evaluation process by using structural observation, kinesiology, and an interview that may include questions about health history, current medications, and lifestyle.

I agree to keep the SET practitioner updated on any changes in the status of my health.

I agree to inform the SET practitioner of any and all medication changes that occur throughout the duration of my SET treatments.

I understand the optimum number of SET sessions will be determined by the SET practitioner in order to achieve the rehabilitation goals based on my symptoms.

I understand that the SET practitioner may at any point in the treatment, using her professional judgement, decide that I have reached my limit for that particular treatment.

I understand that it is my responsibility to communicate to the SET practitioner if I feel I have reached the end of my tolerance for SET therapy within any given session.

I give my permission to the SET practitioner to move clothing aside when necessary in order to work on soft tissue that would usually be covered by a bathing suit (genitals will not be exposed and modesty will be respected). When the therapist explains the reason for working specific soft tissue, I agree to communicate to the therapist if it is NOT ok for the area to be either touched or exposed for treatment (ie hips, gluteals).

I understand that Biofield Tuning is an energy medicine method for self-healing and wellness that uses sound waves produced by specialized tuning forks in the Biofield that surrounds the human body. The practitioner uses some hands-on touch and applies the handles of weighted tuning forks and crystals directly to the body.

I understand that energy medicine methods are designed to assess where the body's energy is blocked, trapped, or not in harmony and then correct the flow of this energy by aligning the body's energy to boost health and vitality. The practitioner is not "treating" the physical body, but is rather connecting to the "subtle body" of the client which makes it possible to manifest a change or transformation, which is experienced directly by the client.

I understand that payment is due in full upon completion of the session unless other arrangements have been made.

I understand that if I do not cancel a scheduled appointment at least 24 hours in advance, (barring emergencies) I am responsible for paying the full fee for that time.
